Dear Art: When I asked you to forward a letter to Trumbo, I enclosed it sealed so you could not read it. In asking you to forward this one to Maltz (Albert, Laurel Canyon), I am instead enclosing a stamp. Reading this will tell you a little of my past. It was not my intent to keep from you what I wrote Trumbo. I just didn't think. I will not be flooding you with such requests, but the L.A. information operator will not give addresses. By the way, Al Wirin also has not responded. Today s "principled" oldsters seem to want to forget the past they then regarded as principled. I asked Al to try to get some money the Freep owes me. Naturally, he is above this today. However, as the history of The Hollywood Ten shows, privation and suffering do not a principle-practising man have to make. Thanks and hope this isn't a chore. I'd like his address for the future. Best, HW 4/16/73
